

## Simberian News | April 2, 2012

...from Simberian Inc.

Welcome to the latest edition of Simberian News!

### Simberian Webinars

We invite you to attend Simberian technical webinars on advanced modeling of interconnects (click on a topic below to see the webinar outline and to sign up):

- 1) [Quality of S-parameter models](#)
- 2) [Material parameters identification with generalized modal S-parameters](#)
- 3) [Pre- and post-layout decompositional electromagnetic analysis of serial interconnects](#)

[Click here to see the schedule and to sign up.](#) These webinars are FREE and open to everyone (require registration at our site). Free Simbeor training classes over internet are also available on request from our customers. Classes on advanced modeling of interconnects are also available on site in USA. Please contact us to schedule a webinar or class.

Simberian webinars are provided to explain advantages and limitations of analysis technology used in our Simbeor electromagnetic signal integrity software. Simbeor software is becoming one stop solution for all PCB interconnect compliance analysis tasks. [Click here to download and try Simbeor today](#), or let us know if you would like to have an overview and demo of Simbeor at your company site or over the internet. See demo of some latest Simbeor features at [the demo-video section of our web site](#). [A brief overview of Simbeor software is provided here.](#)

Sincerely,  
Team Simberian
