Simberian Announces Agreement with Mentor Graphics and Releases Simbeor™2007 Updated Features

Seattle, WA — Simberian, Inc., a developer of leading edge electromagnetic software for high-speed and high-frequency electronic design automation, announced today an agreement with Mentor Graphics to partner in the OpenDoor™ program. This agreement enables closer engineering and marketing cooperation between the two companies. Through this agreement, **Simberian's 3D full-wave field solver for multilayered circuits, Simbeor™** can output electromagnetic models of transmission lines and via-holes directly to HyperLynx and Eldo formats for accurate system level design of high-speed serial PCB and packaging interconnects.

Also announced by Simberian today, was the new release of Simbeor™ 2007 which included three new feature updates: **two-sided metal surface roughness analysis, models for trapezoidal strips, and the release of a multi-user network licensing version of Simbeor™ software.** Metal surface roughness can significantly degrade signals in interconnects and Simbeor™ provides unique capabilities to model it.

Simbeor™ 2007 runs on any computer with Windows 2000/XP or compatible OS, single, dual-core or quad-core processors, and a 3D video card. **The annual license for Simbeor 2007 Level 1 software is \$4,500 in the US.** To ensure customers' success, Simberian offers free online webinars and training classes, technical product support. Software updates are also included with the annual license of Simbeor™ 2007.

Company Information

Simberian, Inc. is a developer of leading edge electromagnetic software for the high-speed and high-frequency electronic design automation. Simberian's goal is to build **advanced, easy to use, and affordable** electromagnetic solutions, while addressing the critical needs of the interconnect developers. Simberian's mission is to help our customers worldwide to push performance limits of high-speed PCBs and multilayered packages to shorten product time to market achieving design objectives more cost effectively and efficiently. For more information, or to test drive the full version of Simbeor™ 2007 contact Rick Yates, VP of Sales and Marketing, at 503-336-4890 email rick.yates@simberian.com or visit the Simberian web site <http://www.simberian.com>.
