Revolutionize Your PCB Analysis with Simbeor 2024.01

Wave goodbye to endless clicking and embrace the future of PCB interconnect compliance analysis automation with Simbeor 2024.01. It opens a new era of PCB interconnects analysis automation, transforming your workflow with unparalleled ease and efficiency. Learn how to do it from a 5-min tutorial #2024_05 at <https://www.simberian.com/ScreenCasts.php?view=list> or with instructions and examples provided at https://kb.simberian.com/browse_item.php?id=1131

Simbeor's automation goes beyond mere speed and convenience. It's about making informed decisions quickly. With the S-Parameters Similarity (SPS) metrics, **assess the impact of design iterations and material choices on your PCB's electrical performance—all done automatically. This isn't just an innovative feature; it's a Simbeor exclusive!** Forget about geometric comparisons and DRC based on geometry. Now, the focus is solely on the compliance: ensuring your interconnects meet standards in every board iteration.

New tutorials on the pre-layout (#2024_03), post-layout (#2024_03) and enhanced post-layout or multi-board analysis (#2024_02) are also available at <https://www.simberian.com/ScreenCasts.php?view=list>. Enhance your skills and say ahead of the curve.

Are you ready to transform your analysis process? Download and try Simbeor 2024.01 today, or reach us out for a guided introduction to the interconnect analysis with Simbeor. **Simbeor 2024.01 is the ultimate universal 3D SI software at the lowest price.** Let's make PCB design smarter, together.

Thank you for choosing Simbeor – **Be the SI Expert!**

Sincerely,
Team Simberian
